Carey ROLL-ROOFINGS

THE body of this durable roofing is made of Carey Woolfelt thoroughly saturated with the toughest, most elastic asphalt compound. The surface is thickly coated with mica (isinglass) put on at 400° of heat and rolled in under heavy pressure.

Mica makes the roofing spark-proof; it stands three thousand degrees of heat. It is a protection against lightning—being the most perfect non-conductor of electricity obtainable—used in electric light bulbs. No superior to mica as an insulator has ever been discovered.

Tough, durable, weather-resisting, fire-resisting, Mica-Kote Roofing will keep your buildings warmer, and give you long service at astonishingly low cost. Made in three weights. Ask us about them.

REVIVAL SERVICES FROM NOVEMBER 5 TO 18

Eminent Atlanta Divine, Rev Ralph Gillam, Will Be the Principal Speaker.

The Congregational church has arranged for a revival meeting to continue for two weeks, commencing November 5 and closing November 18. Rev. Dr. Ralph Gillam, a prominent evangelist is to be the principal speaker.

Dr. Gillam is professor of evangelism at Atlanta Theological Seminary, Atlanta Georgia. He comes to us well recommended as a man of broad experience, having been in the ministry for twenty-five years, twenty-one years of which have been in evangelistic work in forty-four different states in America. Also eighteen months in religious work in France, Belgium and Germany during the World War. At one time Dr. Gillam was an assistant to that great evangelist Dwight L. Moody.

As Dr. Gillam is a close student of human nature, a quiet though forceful speaker, a man of broad and sympathetic intelligence and of deep spiritual experience, we confidently hope and pray for a real religious awakening in this community, it supported by our sincere prayers and hearty co-operation.

As we wish this to be a community-wide effort, we earnestly invite all the churches of the town to co-operate with us in this effort.

Your in the Master's Service,
R. E. NEWTON.
